SYNGENTA FLOWERS

PETUNIA PAINTED LOVE™ PURPLE

Providing a dramatic new aesthetic for gardens and combinations, Painted Love™ features unique bicolor flowers. Its mounding growth pattern is ideal for hanging baskets or containers, showcasing outstanding flower stability and garden resilience for lasting performance throughout the summer.

KWIK KOMBO

How do you pick just one? Well, you can't because there are 93 different Kwik Kombos™ to choose from. There's a color for every season with single-species and multi-species combinations that provide simplicity in the greenhouse and excitement in the retail garden center. When you choose a Kwik Kombo™ you are getting top performing Syngenta genetics that are tested and selected for uniformity and longevity. Eight new mixes include 4 singles-species and 4 multi-species.

- (A) Perfectly Purple™ Mix
- (B) Picnic in the Park™ Mix
- (C) Sanguna® Mega Heart-Throb™ Mix
- (D) Sanguna® Sweet Sensations™ Mix
- (E) Peach Squeeze™ Mix
- (F) Disco Inferno™ Mix
- (G) Bandolista™ Lava Flow Mix
- (H) Callie® Cabana™ Mix

SUNFLOWER SUNFINITY® DOUBLE YELLOW

For enthusiasts of the Sunfinity® seed variety, the vegetative option, Sunfinity® Double Yellow, offers even more to love. Sunfinity® ensures exceptional garden performance with non-stop blooms and excellent powdery mildew resistance all summer long. This vigorous plant ranges from 32-40" in height and 24" in width, featuring a well-branched, full habit that thrives in large patio containers and landscape settings.

PETUNIA DEKKO™ MAXX™ PINK (A)

Bred for resilience, Dekko™ Maxx™ is a hardy variety known for its robust nature. This plant showcases maximum vigor, reaching heights of 8-12" and spreading up to 24". Despite its small yet powerful flowers, its low-spreading habit makes it an excellent option for enduring tough landscape conditions.

PETUNIA DEKKO™ (B)

Dekko™ Petunias are beloved for their versatility, thriving in small pots or landscape settings. These petunias exhibit outstanding garden performance and offer a diverse selection of both classic and distinctive colors, ideal for enhancing mixed combinations or baskets. Complementing the series of 13 color choices are Dekko™ Pinwheel Purple and Dekko™ Rose Vein.

(B) Purple Pinwheel
(C) Rose Vein

CALIBRACHOA CALLIE®

Big vigor with bold colors is what you will get with Callie® Strawberry Spark and Callie® Blueberry Spark. The Callie® series is a versatile workhorse for many programs. It's the perfect mixer and the primary foundation for many Kwik Kombos™. With 23 color options you are sure to have a standout in your combination containers or stand alone baskets.

(D) Blueberry Spark
(E) Strawberry Spark

DAHLIA MISS MANDY

Miss Mandy is named after our late industry colleague, Mandy Gerace. This dahlia boasts 4" peachy pink double blooms, exuding beauty and elegance. With a robust growth habit of 18-24" in height and 15" in width, it thrives in large containers or landscape plantings.

DAHLIA KARMA

This dahlia is specifically bred for cut flower production. It has beautiful vibrant blooms with strong sturdy stems. Its vigorous upright habit ranges in height from 36-48". You can harvest Karmas at a tighter bud stage for a longer vase life. This variety is offered as an unrooted cutting and there are 12 colors in the series. (Color Shown: Caroline | Other Colors: Karma Amanda Violet with bicolor, Amora Bright Scarlet, Blue Lagoon, Cabernet, Corona Pink, Corona Purple, Corona Red, Corona Yellow Bronze Bicolor, Irene Red Orange, Naomi Mahogany-Red, Sangria Pink Yellow Bicolor)

VINCA NIRVANA® XDR

Nirvana® XDR stands out as the sole vegetative vinca showcasing proven XDR level resistance to various strains of aerial Phytophthora. This heat-tolerant variety continues blooming during the intense summer heat. With a moderate vigor and mounding growth habit, it serves as an exceptional option for mixed combinations. The distinctive flower colors add a touch of novelty, perfect for premium pots to enhance profitability.

- (A) Blue Halo
- (B) Cranberry Halo
- (C) Blackberry
- (D) Blush Splash

BEGONIA BIRTHDAY BASH™ (A-D)

Who doesn't like to celebrate a birthday? Syngenta's new Begonia Birthday Bash™ adds vibrant beauty to any party. The series offers four colors with sweet double flowers against dark chocolate foliage. These begonias are both heat and shade-tolerant, with a mounding habit ideal for hanging baskets. They can also be grown in a variety of container sizes, with flowers that last from late spring throughout the summer, making them a standout at any retail garden center.

- (A) Cotton Candy
- (B) Raspberry Sherbert
- (C) Cream Puff
- (D) Chocolate Cherry

BEGONIA ADORA™ | EMERALD SALMON (E)

If you remember, last year, the Begonia Adora™ Series was introduced, which features dark foliage. This year, we are introducing Adora™ Emerald. This color offers beautifully elegant double Salmon flowers on top of green foliage. It's medium in vigor with a mounding habit, offering versatility to grow in various container sizes. With a height of 8-12" and a width of 10-14", this is an excellent choice for low-maintenance, colorful gardens all summer long.

MANDEVILLA HYBRIDA MADINIA® PETITE (F)

For a low-maintenance, sturdy plant choice, look no further than Madinia Petite. This plant excels in early flowering, requires fewer PGRs, and supports high-density production in small pots. With a mounding habit reaching 10-12" in height, it's suitable for tabletop planters and compact garden areas. Its tropical blooms remain vibrant well into Fall, ensuring smiles from consumers throughout the season. (Color Shown: Deep Red | Other Color: Pink)

INTERSPECIFIC GERANIUM CALDERA™ (A)

Caldera™ is an ideal geranium option for striking landscape arrangements, hanging baskets, and assorted containers. This variety, akin to Caliente® geraniums in its heat resilience, showcases a sprawling nature that remains distinctive throughout the summer season, featuring deep-colored foliage and vivid single blooms. The series encompasses five color variations, varying in height from 10 to 14" and spreading up to 20" in width. (Color Shown: Hot Pink | Other Colors: Lavender, Pink, Red and Salmon.)

MUEHLENBECKIA AXILLARIS COINS (C)

This variety, characterized by rapid growth and simple propagation, features small, dark, glossy leaves on slender, copper-colored stems, making it perfect as a filler element. Its creeping, trailing nature adds textural richness, offering a pleasing contrast that complements combinations without overpowering them.

INTERSPECIFIC GERANIUM CALLIOPE® | LARGE DARK SALMON (B)

The first groundbreaking interspecific innovation within the industry, Calliope® stands out as the leading geranium brand. Calliope® Large, with its robust growth pattern and abundant flowering capability, proves to be the ultimate selection for impactful hanging baskets and sizable containers. The extensive color palette and year-round performance ensures consumer satisfaction, with a choice of 15 colors in the series.

INTERSPECIFIC GERANIUM MOJO™ | WHITE SPLASH (D)

Mojo™, a vital interspecific geranium series, proves versatile in various container dimensions. Its vivid colors and sizable blooms contrast beautifully with dark green foliage, creating a visually stunning variety. With a mounding growth habit, this series offers 9 color options and reaches heights of 12-16" in garden settings.

DÜMMEN ORANGE

BUDDLEJA LITTLE ROCKSTARS

Introducing a new compact Buddleja series boasting stunning large cone-shaped inflorescences. Ideal for small pot production, these varieties offer a comprehensive color range and bloom throughout the entire season.

(Color Shown: Blue | Other Colors: Red, Purple, Pink and White)

CALIBRACHOA TIK TOK®

Introducing two new additions to the Tik Tok® series: a delicate periwinkle blue bloom that harmonizes seamlessly with the existing palette. Another standout is an antique pink flower, distinguished by its deep burgundy eye and charming yellow stripes reminiscent of "clock hands". Additionally, our novelty blooms feature vibrant yellow stripes, bringing a delightful touch to any hanging basket or mixed arrangement. There are 9 colors in the series.

- (A) Crystal
- (B) Sky Blue

CALIBRACHOA RAINBOW®

ICED BLUEBERRY (C)

A fresh addition to the lineup of 8 colors, this variety shines with a deep, luscious blue in the cool spring months, transitioning to a pristine, bright white as temperatures rise. This color transformation is the most remarkable among Dümmen Orange's Rainbow series. Enjoy a diverse spectrum of vibrant blooms that shift shades based on the temperature during bud formation. Versatile for stand-alone displays, hanging baskets, or as a key element in larger combinations, this variety offers a colorful journey throughout the season.

CALIBRACHOA BLOOMTASTIC

The series now includes a fresh periwinkle blue shade, demonstrating reliable garden performance and high resilience to heat and humidity. Additionally, a vibrant bright white variation with a cheerful yellow center has been introduced. These flowers boast large, oversized blooms reminiscent of petunias on a calibrachoa-like plant structure and growth habit. Known as Bloomtastics, they serve as powerful assets for patios and gardens, showcasing proven performance in various conditions. There are 11 colors in the series to choose from.

- (A) Blue Sky
- (B) Sunshine

ERYSIMUM WALLART LAVENDER (C)

Expanding the palette of the Wallart series to 5, Lavender joins as its newest color variant. Characterized by its compact stature and impeccably rounded form, this addition further enhances the series' visual charm. With its signature early crop timing and extended flowering period, the Wallart series maintains its reputation for enduring allure.

GERANIUM GLORY DAYS

Introducing a fresh line of heat-resistant geraniums, Glory Days is a stunning collection of single-flowered ivy geraniums featuring rich, dark green leaves. These plants boast excellent branching, a trailing growth pattern, and a moderate vigor that perfectly suits hanging baskets and planters. There are two colors in the lineup.

- (A) Pink Bicolor
- (B) Red Orange Bicolor

DAHLIA HYPNOTICA CANDY CORN (C)

Meet "Candy Corn," the latest vibrant addition to the Hypnotica series of Dahlias! Named for its resemblance to the popular candy, it features striking patterns of bright yellow, orange, and white. With a medium-vigorous growth habit and excellent branching, this variety promises to captivate with its playful charm. Candy Corn is sure to stand out in a lineup of 12 colors.

COLEUS DOWNTOWN™

The Down Town™ Coleus are Dümmen Orange's most compact series offering 5 colors in the lineup. Characterized by finely textured foliage with multi-toned patterns, these plants pack a bold punch even in small spaces. Thriving in both full sun and part shade, they are late to flower, ensuring long-lasting beauty. An excellent choice for combinations, they bring versatility and vibrancy to any garden.

- (D) Dallas
- (E) Port Fairy

PROVEN WINNERS

DAHLIA VIRTUOSO™

While Dahlias are undoubtedly popular among consumers, they can be challenging for growers due to their size and susceptibility to mildew. After their years of trials, Proven Winners has curated the finest garden Dahlias to create our new Virtuoso™ series. These plants boast exceptional vigor, along with good tolerance to powdery mildew, making them a dream to produce. With large double to semi-double flowers held on proportional stems above densely mounded foliage, Virtuoso Dahlias offer a stunning visual display. The Virtuoso™ series is available in a wide array of colors, including soft pink, deep pink, bright yellow, violet purple, and carmine red, with even more exciting hues planned for the future. With Virtuoso™ Dahlias, you can offer your customers beauty and longevity, ensuring satisfaction and repeat business.

HELIOTROPIUM ARBORESCENS | PURPLE

If you've been hesitant about growing Heliotrope in the past, it's time to give it another chance. The new selection, Aromagica™ Purple, brings two significant improvements that make it a top choice: outstanding summer garden performance and a beautifully branched, layered habit. While other varieties may start to fade and thin out by midseason, Aromagica™ Purple stays vibrant and full, boasting plentiful clusters of large, fragrant, purple blossoms that retain their charm throughout the summer.

SUPERBELLS® CALIBRACHOA DOUBLE | VINTAGE CORAL

Unique in color, Vintage Coral is a fully double-flowered Calibrachoa. For a truly stunning display, consider pairing Superbells® Double Vintage Coral™ with deep reds and purples, golds, or creamy whites in hanging baskets, upright containers, or window boxes. This exceptional variety stood out as a top performer in our Florida trials, earning the title of the top Superbells® and one of the best plants overall in the entire trial. Its impressively robust habit ensures a continuous profusion of blooms throughout the season without the need for deadheading. Like all Superbells®, it has been meticulously screened for resistance to Thielaviopsis, guaranteeing lasting beauty and health in your garden.

Top Pick for 2025 | Vintage Coral

SALVIA UNPLUGGED®

Finding attractive annuals with native roots can be challenging, but Unplugged® White fills that niche perfectly. As a cultivar of *Salvia farinacea*, native to regions from Florida west to Texas and New Mexico, it boasts a strong tolerance to heat and humidity, making it a resilient and reliable choice for gardens in diverse climates. With Unplugged® White salvia, you can enjoy the beauty of native-inspired plants while supporting pollinators and adding effortless elegance to your garden or landscape. Similar to Angelface® Angelonia, Unplugged® Red boasts a semi-upright, vase-shaped habit that adds elegance and structure to any garden or landscape.

(A) Red
(B) White

PORTULACA MOJAVE MANGO

Among the Mojave® series, Mojave® Mango stands out as a novel cultivar with its large, bright mango-colored blossoms adorned with a narrow scarlet ring around the center, creating a captivating bullseye for pollinating bees and butterflies. Like its counterparts in the series, Mojave® Mango boasts self-cleaning blossoms and maintains stellar garden performance throughout the season. With Mojave® Portulaca, you can provide customers with a vibrant and resilient option that thrives even in the harshest conditions. Seize the opportunity to meet the growing demand for extreme heat and drought-tolerant plants by introducing the Mojave® series of Portulaca from Proven Winners.

Top Pick for 2025 | Mango

B

PETUNIA SUPERTUNIA TIARA™

What makes Supertunia Tiara™ Blue and Tiara™ Pink remarkable is their ability to bloom continuously from spring to fall without the need for deadheading. Not only do they boast gorgeous flowers, but their vigor is also impressive for novelty petunias. For a stunning display, combine with other medium to high vigor plants in large hanging baskets and upright containers, allowing its beauty to shine.

SALVIA LIVING LARGE™

BIG SKY

This super-sized Salvia is a showstopper for any garden! The magnificent floral display of violet-blue flowers, supported by a dense rosette of large green leaves, is sure to make a stunning statement. And the fact that it blooms later than other perennial Salvias means it extends the floral spectacle, offering beauty and interest to the garden when other blooms may be fading. It's definitely a must-have for any garden enthusiast looking to add a bold and beautiful touch to their landscape! There are 6 colors in the series that are best in zone 3-8.

The #1 Plant Brand.™

HIBISCUS SUMMERIFIC® COOKIES AND CREAM

Cookies and Cream offers a striking contrast with its night-and-day combination of matte black foliage and pristine white flowers. Similar to other dark-leaved Hardy Hibiscus varieties, it thrives in full sun to unveil the deepest foliage hues. With six captivating colors in the series, it's tailored for zones 4-9, blooming from mid to late summer. Ideal for partial to full landscape settings, it adds a captivating touch to any garden or outdoor space.

STOKESIA TOTALLY STOKED™ RIPTIDE

Riptide boasts captivating 2½ - 3" flowers in a charming periwinkle blue hue that grace gardens throughout the summer months. This resilient plant thrives in hot and humid conditions, maintaining its dense, well-branched habit even in challenging climates. As a native North American wildflower, Riptide brings a touch of natural beauty and adaptability to any garden or landscape. Riptide rounds out the series to 15 colors. Best planted in partial to full sun in zones 5-9.

BAPTISIA GOLDEN ANNIVERSARY

This Baptisia variety represents a breakthrough in color, being the first commercially available option to combine indigo blue flowers with golden yellow foliage. Its ball-shaped habit of ovate leaves is supported by sturdy stems, creating a striking visual impact. As early summer arrives, long spikes of indigo blue flowers emerge just above the foliage, further enhancing its allure. Golden Anniversary is best for zones 4-9, blooms late summer to early fall requiring minimal maintenance to thrive.

HOSTA EMPEROR'S NEW CLOTHES'

'Emperor's New Clothes' is undeniably one of the most buzz-worthy Hostas to emerge from Walter's breeding program in recent years! Its distinctive feature lies in the unique flecking adorning each leaf, creating a captivating visual display. The leaves start off predominantly white in spring, but as the season unfolds, the flecks grow in size and number, adding intrigue and charm. Zones 3-9

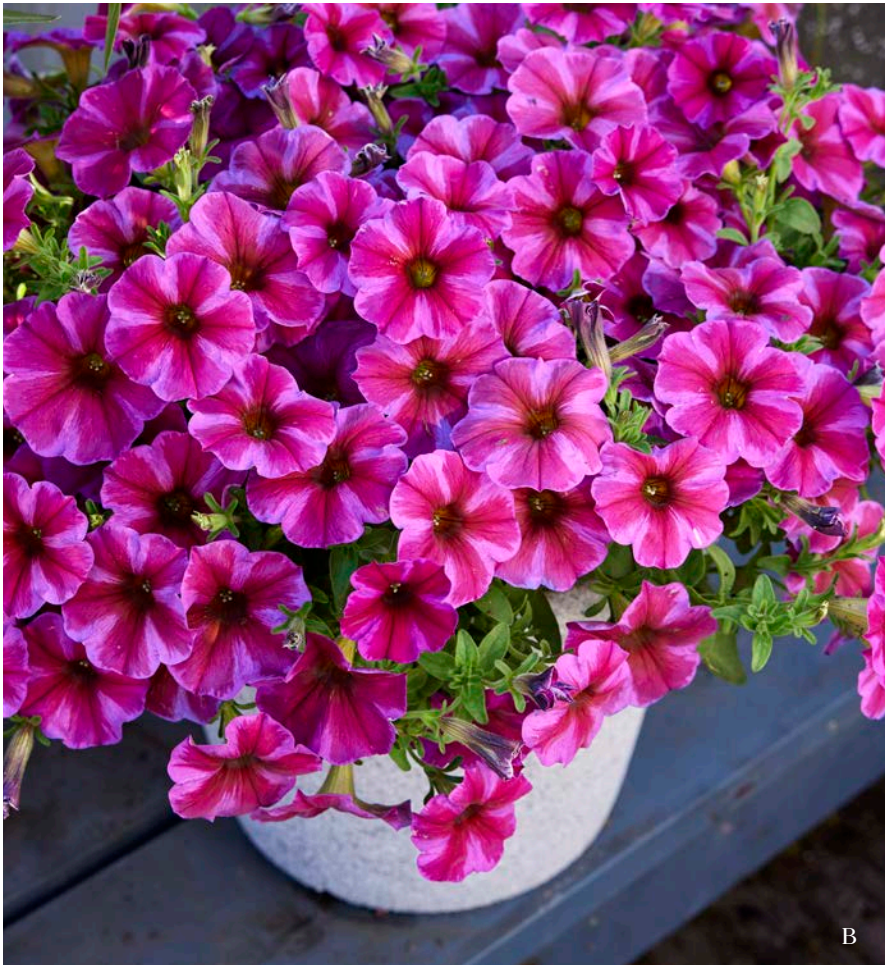

SAKATA

PETUNIA SUPERCAL®

These all weather petunias have exceptional tolerance for cold, heat, and rain. An excellent season extender from early spring through autumn. Shocking Pink replaces Pink Improved for better habit and more floriferous. There are 11 colors in the Supercal lineup and 13 colors in the Premium lineup.

- (A) Premium Rose Pink
- (B) Premium Rose Star
- (C) Shocking Pink
- (D) Premium Pink Mist

A

IMPATIENS SUNPATIENS® COMPACT & VIGOROUS

SunPatians® are an impressive choice for any garden enthusiast! With their exceptional heat tolerance and continuous flowering from spring through fall, they offer a worry-free solution for vibrant garden displays. It's no wonder they're the trusted brand asked for by name. Their ability to thrive even in challenging conditions makes them a reliable and beautiful addition to any landscape. There are 21 colors in the compact series and 15 colors in the vigorous series.

(E) Compact Lavender (F) Vigorous Purple (G) Compact Purple Candy Improved

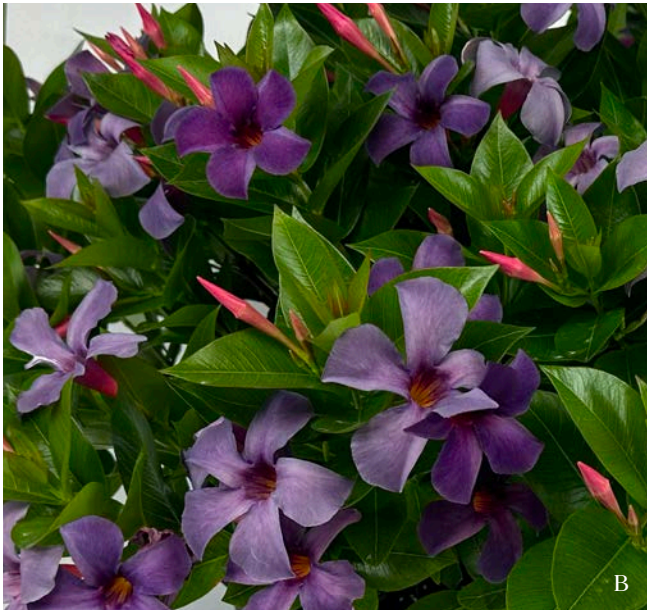

SUNTORY

MANDEVILLA SUN PARASOL®

Bluephoria™ truly sounds like a dreamy addition to any garden. The transition from pink buds to mesmerizing shades of blue is like a magical transformation, and the unique mauve color adds an extra layer of beauty with its artistic brush strokes. It's no wonder it's so enchanting! As for the double pink blooms variety, its recognition as a FleuroStar Winner in Europe speaks volumes about its quality and appeal. With its upright, self-branching habit and double flowers, it's sure to catch the eye and bring double the pleasure to any garden or landscape. These varieties seem like perfect choices for adding charm and elegance to outdoor spaces.

- (A) Mauvelous
- (B) Bluephoria™
- (C) Double Pink Blush

A

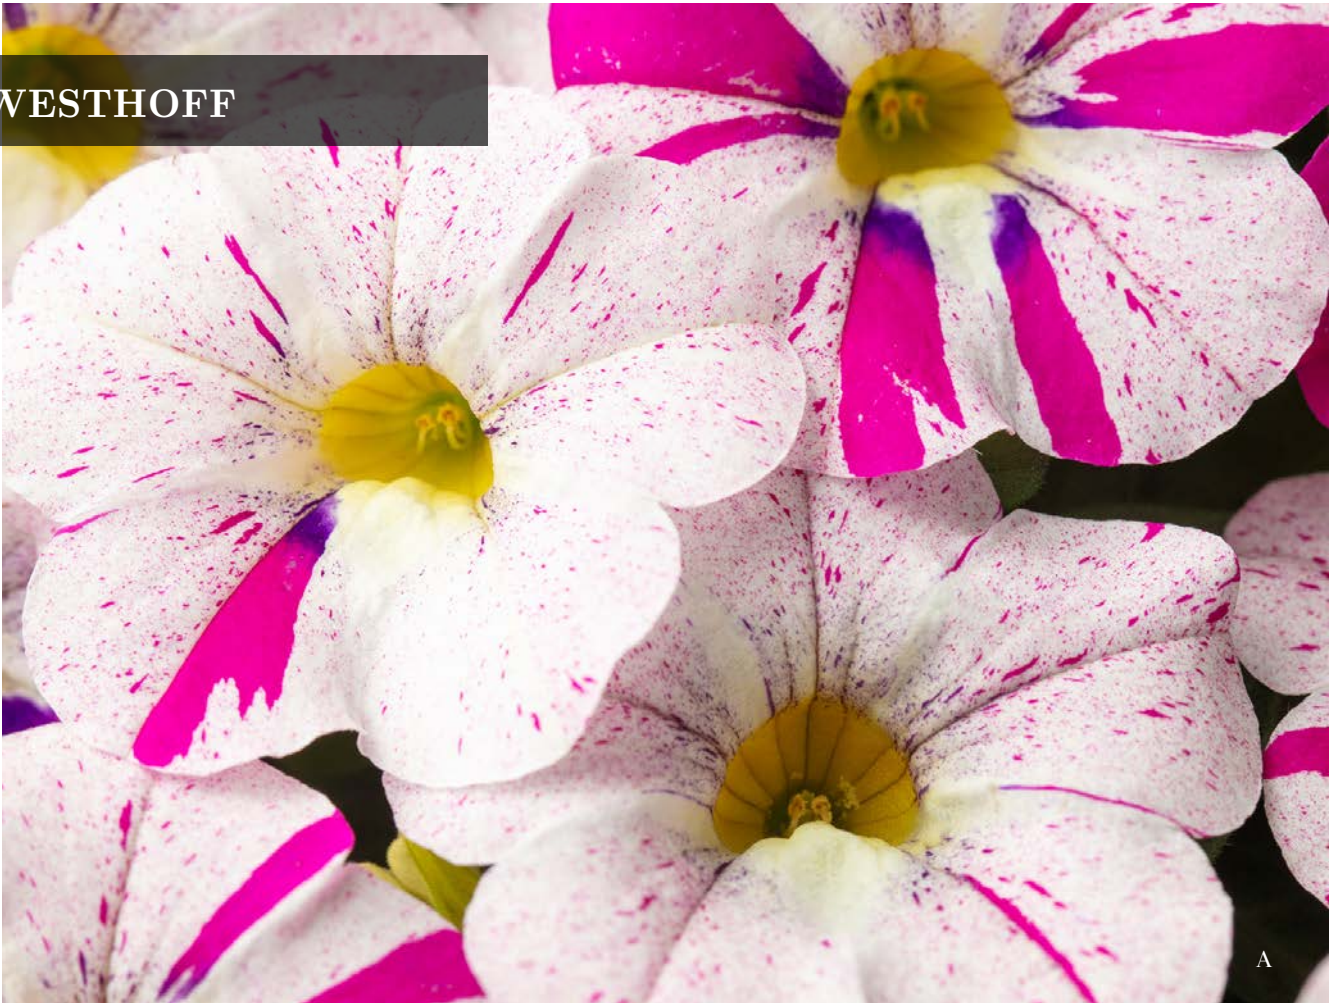

DIPLADENIA
SUN PARASOL® FIRED UP™
ORANGE (D)

This vibrant orange dipladenia is a natural showstopper with its upright growth habit. Its slender foliage and pinwheel-shaped blooms instantly transform any space into a tropical paradise. As a perfect focal point for combinations that thrive in heat, it adds a touch of exotic charm to any garden or landscape.

PERICALLIS SENETTI
BLUE SPOON (E)

Pericallis bursts onto the scene with vibrant hues in early Spring, injecting a much-needed pop of color into containers or landscapes emerging from winter. With 18 colors in the series, the latest addition, Blue Spoon introduces a distinctive pattern to the mix. Its bright blue blooms, spoon-shaped with contrasting white quills, create a striking visual contrast. Unlike the typical mounding habit, Blue Spoon boasts a more upright and vase-shaped growth, adding a touch of elegance to any setting

WESTHOFF

A

B

C

CALIBRACHOA CALILOCO

Westhoff's new collection of Calibrachoa offer unique colors and patterns to drive impulse sales, they are sure to be the star of any mixed combination. There are 13 colors in the series.

(A) Graffiti (B) Spicy Honey

LOBELIA

STRATUS BLUE (C)

Lobelia Stratus Blue, a captivating hybrid Lobelia, stands tall at a height of up to 12". Its distinctive picotee-type flower pattern adds a unique touch, promising to infuse hanging baskets or containers with visual interest and charm.

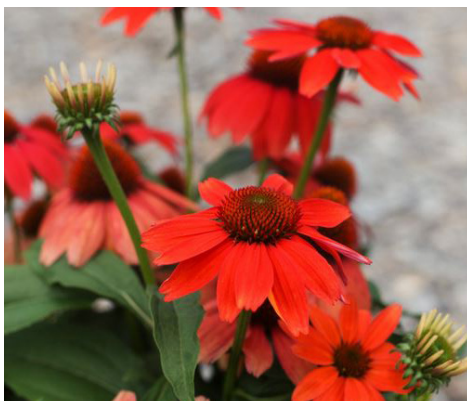

DELPHINIUM GRANDIFLORA HUNKY DORY™

BLUE

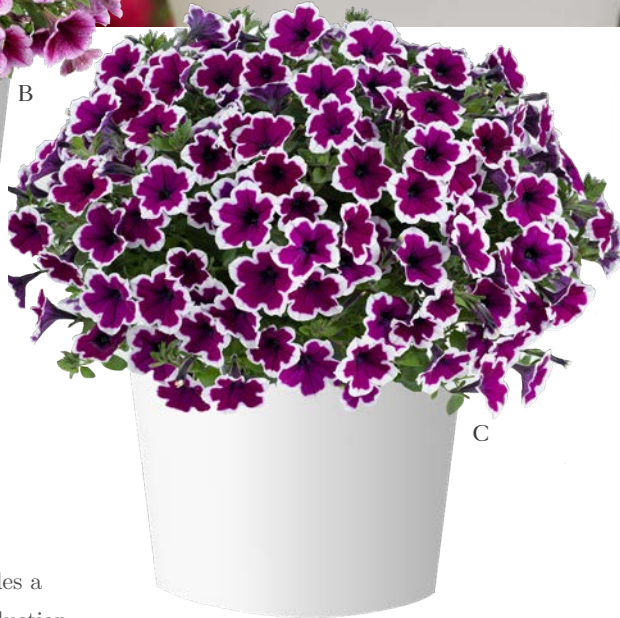

Hunky Dory™ stands out as one of the most uniform series of seed Delphinium grandiflorum, characterized by its heavily branched habit and large blooms. Thanks to its F1 vigor, this series boasts excellent germination and young plant performance, eliminating the need for multi-sowing. The result is a uniform, speedy, and efficient crop, ensuring growers can enjoy consistent quality and productivity without extra hassle. Best planted in zones 4-9 offering a spring/summer bloom Syngenta Breeding.

ECHINACEA PURPUREA GUATEMALA™ | PAPAYA

GUATEMALA™, much like its counterpart PANAMA™, is a new URC Echinacea variety from Danziger. It features robust stems and an upright habit, with blooms held closely to the foliage. Naturally compact in size, it is an ideal choice for containers such as quarts or gallons, offering both convenience and aesthetic appeal.

DANZIGER

PETUNIA CAPELLA™

The Capella™ Series provides a comprehensive petunia production solution, offering core colors and novelties to cater to diverse applications. With its naturally controlled growth habit, it ensures versatility for a variety of gardening purposes. There are 6 colors in the series.

- (A) Pink Morn
- (B) Fuchsia Lace
- (C) Rim Raspberry

PETUNIA CASCADIA | ROSE (D)

Cascadia Rose has an intense rose color with yellow eye. It's a nice addition to the 21 color options of the Cascadia™ series. Abundant in size, they generously cover the plant, cascading gracefully over container edges. Tailored for premium baskets and combinations, this variety blooms early, catering to a wide market range.

NEMESIA NESIA™ | TANGERINE

While Nemesia isn't often considered a season-long bloomer, the Nesia™ family is a remarkable addition to any garden. Bursting with blooms and delightful fragrance, these plants start flowering early and continue to thrive, providing enduring color across various settings throughout the fall season. The introduction of Tangerine brings an even more vibrant color to this already exceptional 6 color lineup.

BEEKENKAMP

DAHLIA LABELLA® MAGGIORE POMEGRANATE®

Meet a striking specimen boasting sizable flowers adorned with a vibrant color pattern, all atop a generous plant structure. There are 11 LaBella® colors to choose from and they are sure to be a standout in the garden center.

BEGONIA BK COLLECTION MACARAZZ®

Introducing a heat-loving begonia variety adorned with stunning dark pink flowers. Perfect for both pots and landscaping, this versatile plant thrives in warm conditions, bringing vibrant color to any setting. There are 3 colors in the lineup.

KIENTZLER

PILEA MICROPHYLIA AND SERPYLLIFOLIA

This basket-flowered plant resembles a fern but boasts quicker production than traditional varieties. Microphyllia leaves are smaller than those of Serpyllifolia, making it ideal for compact spaces. Conversely, Serpyllifolia features larger leaves compared to Microphyllia, providing a balance between size and efficiency. (Image: Microphyllia)
