YOUR SINGLE SOURCE SUPPLIER FOR ALL HORTICULTURAL NEEDS

About Griffin

Griffin is a partner to horticulture professionals. Family owned and operated since 1947, we apply our knowledge, experience and resources to enhance customer success from production to retail.

End-to-end solutions are our specialty. We represent the industry's leading breeders and producers, spanning seed and vegetative, bedding and potted crops, ornamentals and edibles. Our grower supplies offer includes reliable inputs and equipment to help your crops thrive through all production stages. Finally, our quality retail products drive add-on sales for you, while enhancing consumer success and enjoyment.

To learn more about our company, we invite you to visit us online at www.griffins.com, follow us on LinkedIn, Instagram and Facebook.

Griffin is Committed to Exceptional Customer Service

Our goal is simple: to meet your needs and exceed your expectations. From the time you place your order until it's delivered to your location, our team works to treat you with the utmost care every step of the way.

We strive to deliver every order on time and in full.

Your opinion matters to us! Customer feedback is key to helping our team deliver on our service pledge. Please don't hesitate to contact me directly – by phone or e-mail – with any questions or input that may help us serve you better.

PRODUCTION SUPPLIES

Griffin's roots are in production supplies, and they remain the backbone of our company today. We're proud to offer reliable inputs and equipment to help your crops thrive through all growing stages. Look to us for containers, growing media, chemistry and more from the manufacturers you know and trust. With the increasing demand for more economical and environmentally friendly methods of growing crops, we now specialize in Controlled Environment Agriculture from hydroponics to hemp. Our 16 branch locations service customers nationwide with convenience and efficiency. Shop all of our grower products and place your order with your Griffin sales representative or on www.griffins.com.

RETAIL SOLUTIONS

Griffin is the independent retailer's best source for lawn & garden products. We make it easy for IGCs to do business, with complete vendor offerings, low order minimums and efficient shipping solutions. Raise your retail game with help from our experts! Count on us for seasonal promotion ideas, merchandising best practices and space-planning tips to maximize your display areas and drive sales. Shop all of our retail products and place your order with your Griffin sales representative or on www.griffins.com.

GREEN GOODS

Griffin is a full-service broker of live goods to professional growers. Our assortment includes seed and vegetative material, bedding and potted crops, ornamentals and edibles from the industry's most respected breeders and producers. We're uniquely committed to the seed business, stocking more than 3,300 variety/product-form combinations in our state-of-the-art seed operations facility. Count on us for annuals, perennials, grasses, herbs and vegetables. We're serious about seed quality: Inventory monitoring and regular performance testing ensure every variety meets its full potential, from the greenhouse to the garden center. Browse our complete portfolio and book your inputs through your Griffin sales representative or on www.griffins.com.

TECHNICAL SUPPORT

GGSPRO is our in-house technical services team. With more than a century of combined experience, GGSPRO delivers prompt, practical and accurate support to Griffin customers nationwide. The team's areas of expertise include: Crop culture, sanitation protocols, plant physiology and pathology, chemical controls, biological control agents (BCAs) and plant nutrition. GGSPRO endorses a holistic approach to plant protection, utilizing a mix of cultural practices alongside chemical and biological controls to manage pests and diseases. Visit www.griffins.com/ggspro or contact GGSPRO with questions as you have them at **800.888.0054**.

CONSTRUCTION SERVICES

Our construction team assists with all aspects of greenhouse planning, construction and maintenance. Whether it's a new operation or expansion, upgrades or replacements, we can help with options to meet your needs and fit your budget. We offer a full range of equipment to help you grow efficiently and profitably. Look to us for greenhouse structures, films and coverings, lighting, climate control, irrigation, carts and more. Visit us at www.griffins.com/construction to learn more about our product portfolio and see our project showcase.

YOUNG PLANTS

Griffin delivers premium quality plugs, liners and pre-finished plants from reputable producers nationwide. Our young-plant network serves all major regions of the country with reliable fill rates. To assure freshness, truck delivery is available to most areas from many of our partners.

Our assortment of market-leading varieties is available in the most popular product forms to meet your needs and preferences. Of course, our young-plant products are backed by the same unbeatable service and support you've come to expect from Griffin.

PERENNIALS

Quality inputs yield the best finished product. We partner with accomplished breeders and producers worldwide to bring you the best in perennial seed, cuttings and young plants.

We've built our perennial assortment with your success in mind. Our diverse portfolio features cutting-edge genetics to simplify scheduling and production for you, and provides enduring performance and value to modern consumers.

We're a proud sponsor of the Perennial Plant Association and other organizations that support perennial growers, breeders and producers.

Sourcing has never been this simple

One login connects you to the industry's broadest selection of products for growers and independent retailers:

- Green goods including seed, cuttings and young plants
- Production supplies including containers, growing media and plant protection products
- Greenhouse structures and equipment
- Retail supplies including lawn & garden products, accessories and gift items

LIMITLESS™

Limitless begonia is an exciting new addition to the tuberous begonia class. Mounding, spreading plants support fully double, extra large flowers that sit on top of the foliage for superior color presentation at retail. Excellent branching means that plants completely fill every container size.

Blooming up to a week earlier than the competition, Limitless reduces production time. Use in containers, baskets, garden beds, patio pots and combos.

Garden Height: 8-10"

Garden Spread: 8-10"

Containers: 4-6" Pots, 1.5 Gallon Baskets

DRAGON'S BREATH

Incredibly rich red color! Dragon's Breath is an extra-large variety, ideal for gallon production and stunning in fall landscapes. A fabulous performer through hot and humid conditions. Striking red foliage is appealing at retail even without flowers. Produced in long days only, plants will develop plumes in early fall. Give short days in production to add bright red plumes for spring sales.

Garden height: 24"

Garden spread: 16"

Days to first flower: 70-90 (short days), 85-110 (long days)

KALE BRIGHT AND EARLY SERIES

Genetically compact and tidy for small pot and pack production, requiring less PGRs and able to perfectly fill a range of pot sizes with ease. Bright and Early colors are clean and crisp, coloring up early, with minimal need for cold temperatures, offering a shorter production cycle to a wider range of growing conditions. Densely formed crowns remain tight and fresh, displaying bright and contrasting colors for ultimate retail appeal.

COLOSSUS™ SERIES

Colossus offers a tight, dense plant habit, with shorter internodes and small leaves. This contributes to less stretch, so Colossus is easier to manage in production and shows longer shelf life. This popular series features upward-facing blooms up to four inches across on short flower stems, creating a striking color show in packs, pots and landscapes. Colossus stays more compact during warm production conditions, making it the perfect choice for late spring, summer and fall production.

DELTA™ PRO

Produced for Precision, Delta Pro brings the highest levels of programmability and uniformity to the large flowered pansy class. Planning for spring or fall is made easy with Delta Pro's extremely uniform and early flowering. 80% of Delta Pro varieties come into bloom within a 5-day window. And uniformity in plant habits and vigor mean that all varieties in the series can be grown with the same protocols making production a breeze. Compact and heavily branched plants fill packs and pots quickly. Large upright-facing flowers on short stems provide a long-lasting show of color at retail.

Once again Delta™ raises the bar for pansy quality with the Delta™ Pro

Produce your best pansy crop ever with Delta Pro. Uniformity in flowering, habit and vigor simplifies production. Upright facing flowers on full branching plants shine at retail.

Get all the facts about Delta™ Pro in our Digital Edition.

DELTA™ CLASSIC

Expand your pansy offer for spring or fall with these high demand colors and mixes that complement the Delta Pro assortment. Although Delta Classic varieties have a slightly wider range for flower timing and plant vigor than Delta Pro, they still offer top quality performance in each color class. With early flowering, large, showy blooms and strong plant build these 'must have' colors and mixes will not disappoint in the greenhouse, at retail or in the garden.

Petunia – Spreading

EVENING SCENTSATION

As its name suggests, Evening Scentsation is a sweetly scented variety, containing notes of hyacinth, honey and rose. Its fragrance is detectable all day long, but more prominent in the evening hours. Plants have a low, spreading habit and clear indigo blue flowers.

Garden height: 5-8"

Garden spread: 30-36"

Days to first flower: 65-75

Flower size: 2½"

Product form(s): PLT

Evening Scentsation

FLASHFORWARD™ SERIES

This spreading milliflora series is small but mighty; perfectly suited for baskets, bowls, pots and premium large packs. A perfect companion plant in mixed combos, FlashForward will not over-take its pot-mates. Extra early flowering, even in short days for early season sales opportunities. Tidy plants hold their shape at retail and stand up to harsh weather in the garden, flowering all season long.

Anemanthele Sirocco

Anemanthele

(*Anemanthele lessoniana*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Sirocco	10-12"	12-14"	7-10	Full sun to partial shade	The only pink grass from seed on the market today. Color matures to copper and pink shades under cool conditions and natural sunlight. MPLT seed form.

Carex

(*Carex buchananii*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Red Rooster	20"	30"	6-9	Full sun to partial shade	Upright bronze foliage adds color and texture to mixed containers and landscapes. MPLT seed form.

(*Carex comans*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Amazon Mist	6-8"	10-12"	6-10	Full sun to partial shade	Fine, light-and-dark green foliage for mixed containers and bedding use. MPLT seed form.
Phoenix Green	18-20"	22-24"	6-10	Full sun to partial shade	Narrow-leaved and bright green foliage. Low maintenance with good heat tolerance. MPLT seed form.

Carex Red Rooster

Festuca

(*Festuca cinerea*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Festina	12"	18"	4-10	Full sun to partial shade	Vivid steel-blue foliage thrives in hot, dry conditions. MPLT seed form.

(*Festuca glauca*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Blue Fescue	15"	20"	4	Full sun	Fine-textured, needle-like leaves of silver-blue in a compact globe shape.

(*Festuca valesiaca*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Buddy Blue	8"	12"	4-8	Full sun	Silvery blue foliage with open panicles of tiny beige spikelets. Tuft-forming habit. Vernalization required. Best suited to fall and winter sales.

Carex Phoenix Green

Festuca Festina

Isolepis

(*Isolepis cernua*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Live Wire	3-5"	6-8"	Annual	Full to part sun	Soft green leaves with unique flowers that look like fiber optic strands. Performs best in mixed containers. MPLT seed form.

Isolepis Live Wire

Juncus

(*Juncus ensifolius*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Starhead	6-8"	8-10"	4-10	Full sun to partial shade	Broad-leaved green foliage with a compact habit. Plants display long-lasting deep green star inflorescences. MPLT seed form.

Juncus Starhead

(*Juncus inflexus*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Blue Arrows	18-36"	36"	5-9	Full sun	An easy-to-grow selection noted for its stiff, upright, blue-green foliage. Well suited for landscape plantings or containers. MPLT seed form.

Juncus Blue Arrows

(*Juncus interspecific*)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Twisted Arrows Fuseable	18-36"	18-36"	5-9	Full sun	Twisted Arrows combines Blue Arrows and <i>Juncus effusus</i> spiralis for high visual appeal. The straight and twisted foliage is great in mixed containers. MPLT seed form.

Juncus Twisted Arrows Fuseable

Juncus Javelin

(Juncus pallidus)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Javelin	36"	48"	8-10	Full sun	A striking and sturdy upright variety that can tolerate everything from heat and drought to standing water. Can reach up to 60" in the landscape. MPLT seed form.

Juncus Blue Dart

(Juncus tenuis)

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Blue Dart	12-14"	14-16"	4-10	Full sun	Compact, blue-tinted grass with a strong upright habit. Very versatile, performing well in drought or standing water. A fantastic foliage selection. MPLT seed form.

Luzula Lucius

Luzula**(Luzula nivea)**

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Lucius	4-6"	6-12"	4-9	Full sun to partial shade	Features flat, mid-green leaves fringed in white hairs. Thrives in damp, shady locations. Produces small, white flower spikes in spring/early summer. MPLT seed form.

Nassella**(Nassella tenuissima)**

Nassella Pony Tails

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Pony Tails	25"	35"	6	Full sun to partial shade	First-year flowering from seed; treat as annual. Direct sow 7-10 seeds per cell into large plugs. This small grass has hair-like blades topped with soft, creamy seed heads. Used in mass plantings or mixed containers.

Pennisetum**(Pennisetum villosum)**

Pennisetum Feathertop

Variety	Pot Height	Garden Height	Hardiness Zone	Location	Comments-Uses
Feathertop	18"	24"	Annual	Full sun to partial shade	Attractive as a standalone or in group plantings.

New

Basil Everleaf Lemon

Class	Variety	Type	Comments-Uses
ANISE (<i>Pimpinella anisum</i>)	Anise	Annual	The licorice-flavored leaves are used to flavor confections.
BASIL (<i>Ocimum basilicum</i>)	Aristotle 🍃	Annual	Small-leaved basil with classic basil aroma and taste.
	Bonsai New	Annual	See Kitchen Mini Section - Pages 150-151
	Cinnamon	Annual	Similar in appearance to Sweet Basil, with a pleasant cinnamon scent.
	Dolce Fresca AAS	Annual	Compact, bushy plants for a better presentation at retail and greater control in the home garden.
	Everleaf Emerald Towers	Annual	Well branched variety with tight internodes forms a tidy columnar plant. Flowers up to 10-12 weeks later than standard basil for longer harvesting. Traditional Genovese flavor.
	Everleaf Lemon New	Annual	This upright variety is well branched with tight internodes. Flowers up to 8 weeks later than standard lemon basil. Its lemon flavor makes a delicious addition to dressings and marinades.
	Genovese	Annual	A favorite for authentic Italian flavor. Perfect for pesto.
	Lemon Basil	Annual	Very strong lemon scent.
	Licorice Basil	Annual	Licorice or anise scent. Looks similar to Sweet Basil.
	Newton	Annual	Fast growing Genovese basil with high resistance to Fusarium. Large, bright green, crinkled leaves.
	Purple Ruffles	Annual	Dark purple, ruffled leaves cover 12" plants. Good for use as an ornamental and in cooking.
	Siam Queen AAS	Annual	Thai basil with extra-large leaves. Very fragrant, with more licorice flavor than Sweet Basil.
	SimplyHerbs Try Basil	Annual	Precision MPLT, each containing 8-14 seeds. Each pellet contains three varieties: Genovese, serrated and dark red selections.
Sweet Basil	Annual	Used to flavor oils and vinegars. 24-30" plants with leaves up to 4" across.	
BORAGE (<i>Borago officinalis</i>)	Borage	Annual	Used in salads, or sprigs can be used in cool summer drinks. Deep blue, star-shaped flowers. 2-4' tall.
CARAWAY (<i>Carum carvi</i>)	Caraway	Biennial	Used to flavor baked goods. Leaves used to season meats. 1-2' tall.
CAT MINT (<i>Nepeta mussinii</i>)	Cat Mint	Perennial	Grows to 1' with loose, open appearance. Reseeds readily.
CATNIP (<i>Nepeta cataria</i>)	Catnip	Perennial	Aromatic herb up to 3' tall. Favorite of cats. Hardy in Zones 4-9.
CHAMOMILE (<i>Matricaria recutita</i>)	German Chamomile	Annual	Best chamomile for teas. Also known as Hungarian or German chamomile. Perennial in Zones 7-10. Grows 1-2' tall.

To place your order call: 800.888.0054 or www.griffins.com

Class	Variety	Type	Comments-Uses
CHERVIL (<i>Anthriscus cerefolium</i>)	Chervil	Annual	Resembles parsley. Finely-curved, bright green, pungent leaves are used for garnish and flavoring. Mild parsley flavor. Grows 1-2' tall.
CHIVES (<i>Allium schoenoprasum</i>)	Chives	Perennial	Leaves have mild onion flavor and are used in soups, salads and as a garnish.
GARLIC CHIVES (<i>Allium tuberosum</i>)	Garlic Chives	Perennial	Similar to regular chives, but with a garlic flavor. Hardy in Zones 3-9.
CILANTRO (<i>Coriandrum savitum</i>)	Coriander	Annual	Pungent leaves, used fresh or dried in Mexican and Asian cuisine. Seeds are coriander; leaves are cilantro. Grows 1-2' tall.
	Santo	Annual	Versatile herb with a strong and distinctive scent. Thrives in full sun.
DILL (<i>Anethum graveolens</i>)	Dill	Annual	Seeds, leaves and stems are used to flavor pickles. Grows to 3' tall.
	Fernleaf Dill AAS	Annual	18". Dark green, finely-cut foliage. Excellent dill flavor. Used as an ornamental. Attractive dwarf habit. Less invasive than Dill.
FENNEL (<i>Foeniculum vulgare</i>)	Florence Fennel	Annual	Also known as sweet anise. Cooked as a vegetable. Seeds are used as a spice. Not to be confused with bronze fennel.
HYSSOP (<i>Hyssopus officinalis</i>)	Hyssop	Perennial	24". Very fragrant blue flowers. Used as a perfume base. Ornamental appeal as herbaceous hedge. Hardy in Zones 3-9.
LEMON BALM (<i>Melissa officinalis</i>)	Lemon Balm	Perennial	Pleasant lemon scent. Used to flavor iced tea. 18" tall. Hardy in Zones 3-8.
OREGANO (<i>Origanum vulgare</i>)	Italian Oregano (Common Oregano)	Perennial	A slightly sprawling plant habit with dark green, peppery flavored leaves. 2-3' tall. Used in salads and to flavor meats and sauces. Hardy in Zones 5-9.
	SimplyHerbs Oregano	Perennial	MPLT, each containing 9-14 seeds.
PARSLEY (<i>Petroselinum crispum</i>)	Italian Plain	Biennial	Often called "celery leaf" parsley. Flat, glossy, dark green leaves. Preferred for seasoning/drying. 1-2' tall. Hardy in Zones 5-9.
	Triple Curled	Biennial	Finest strain of triple-curved parsley. Compact, dark green, fine-cut.
ROSEMARY (<i>Rosemarinus officinalis</i>)	Rosemary	Perennial	Semi-evergreen, light blue flowers. Can reach 20" tall. Foliage is slightly pine-scented.
	SimplyHerbs Rosemary	Perennial	Precision MPLT, each containing 10-15 seeds.
SAGE (<i>Salvia officinalis</i>)	Sage	Perennial	Leaves used for seasoning. Lavender-blue flowers through summer. Hardy in Zones 5-9.
SAVORY (<i>Satureja hortensis</i>)	Summer Savory	Annual	Leaves and flowers used to flavor meats. 1-2' tall.
SAVORY (<i>Satureja montana</i>)	Winter Savory	Perennial	Flavor enhancer for vegetables. 1-2' tall.
SPEARMINT (<i>Mentha spicata</i>)	Spearmint	Perennial	Narrow, pointed leaves of bright green with conspicuous veins. 1-2' tall. Used in teas and mint sauces. Very aggressive. Hardy in Zones 5-9.
TARRAGON (<i>Artemisia dracuncululus</i>)	Russian Tarragon	Perennial	Not to be confused with French tarragon, which is available from cuttings. Adds good flavor to vegetables. Hardy in Zones 3-8. Grows 2-3' tall.
THYME (<i>Thymus vulgaris</i>)	SimplyHerbs Thyme	Perennial	MPLT, each containing 8-14 seeds.
	Winter Thyme	Perennial	18". Strong fragrance with ornamental value. Not to be confused with French thyme, available as cuttings only. Hardy to Zone 5.
WATERCRESS (<i>Nasturtium officinale</i>)	Watercress	Annual	Tasty salad herb high in vitamin content. Hardy to Zone 8. 1-2' tall.

KITCHEN MINIS® COLLECTION

This collection of compact vegetables offers unique edible pot plants for a sunny window indoors or on a patio table outdoors. Best sold with a few ripe fruits, plants will continue to produce for 4-6 weeks.

Basil (*Ocimum basilicum*)

New

BONSAI

The first herb of the Kitchen Minis Collection. Bonsai is a compact, quick and uniform fine-leaf Greek basil that performs well.

Garden height: 6-12"

Garden spread: 6-12"

Containers: 4-6" Pots

Product form(s): ASTD

Basil Bonsai

Cucumber

QUICK SNACK

This pot-size vining cucumber produces 1 1/2 - 2 1/2" crisp cocktail cukes with smooth, dark green skins. Perfect for table-top and window sill gardens. Ready for sale in 45 days from direct sow. Trellis recommended to keep plants upright. For best results, pinch when plant reaches the top of the trellis.

Garden height: 20-24"

Garden spread: 15-20"

Containers: 6-8" Pots

Product form(s): ASTD

Cucumber Quick Snack

Pepper

FRESH BITES SERIES

Sweet, thick walled snack peppers taste great right off the plant, chopped in a salad or grilled. Fruits are 2 1/2" long and 1 1/4" wide, starting out green and maturing to yellow or orange. Plants produced in 4-8" pots will finish in 18-20 weeks from sowing.

Garden Height: 12-14"

Garden Spread: 8-10"

Containers: 4-8" Pots

Product form(s): ASTD

Orange *New*

Yellow

Fresh Bites Orange

Fresh Bites Yellow

TAMALE

A medium size, bushy plant supports 2" long thick walled, crisp, juicy peppers with a mildly spicy flavor. Tamale can be finished in 4-6" pots in about 16-20 weeks.

Garden Height: 6-8"

Garden Spread: 8"

Containers: 4-6" Pots

Product form(s): ASTD

Pepper Tamale

Tomato

SIAM

This compact, determinate tomato will thrive in 6-8" pots producing handfuls of sweet, 1/2 -1" bright red fruits over a period of 3-5 weeks. Sow to sale in 12-15 weeks. Provide plant support for best results.

Garden Height: 7-9"

Garden Spread: 10-12"

Containers: 6-8" Pots

Product form(s): ASTD

Tomato Siam

Broccoli Purple Magic

Broccoli Green Magic

Beans Masai

Beans Custard

Disease resistance has been denoted (often in parentheses) for many crops in this section. For a detailed key to these disease-resistance codes, please refer to the chart at end of this section.

BEANS

Variety	Days	Comments - Uses
Blue Lake Bush 274	55	Bush snap bean with 5½" long, dark green pods. (BCMV)
Custard	56	Yellow bush bean that produces straight, high-quality pods. (BCMV)
 AAS Kentucky Blue	58	Kentucky Blue is a cross-breed of Kentucky Wonder and Blue Lake. It displays 6-8" long, deep green pods on 6' vines. Produces high yields. (R)
 Masai	57	French fillet bush green bean with upright plants bearing slender 4" pods. Good for rows or containers. Multiple harvests possible. Beans remain tender for several days after harvest. (High resistance to BCMV and Psp:1,2. Intermediate resistance to BCTV and Pss)
 Outlaw	55	High-yielding, upright bush bean with 5" attractive dark green, chubby pods that are slow to develop seeds for fine eating quality. (High resistance to BCMV)

BROCCOLI | *Sell for early spring and mid-summer plantings.*

Variety	Days	Comments - Uses
Artwork	106	Plants offer good side-shoot growth and long, edible stems. For best results, pinch once when main head has reached 1-1½" in size.
Castle Dome	60	Early maturing, compact plant with uniform heads. Shows both good heat tolerance and cold vigor. (BB)
Destiny F1	89	Dwarf plants show good heat tolerance and produce high quality heads.
Green Magic F1	90	Good for warmer areas/times of the year and widely adaptable.
New  Purple Magic	100	The first purple stem, purple head broccoli in the world! The large dome shaped heads weigh in at about 1 pound each. Very high in anthocyanin and nutritious. The plants grow well in all regions of the US.

To place your order call: 800.888.0054 or www.griffins.com

BRUSSELS SPROUTS

Sell for early and mid-summer plantings.

Variety	Days	Comments - Uses
Gustus F1	100	Large, smooth, dark green sprouts. High yields.
AAS Jade Cross F1	80	4-5" taller than the original Jade Cross. Sprouts are larger, closely set and easy to remove. Excellent quality.

Brussels Sprouts Gustus

Tomato Better Bush

Tomato Carolina Gold

TOMATO - ROMA/SALADETTE

Variety	Days	Fruit Size	Type	Comments
Bellatrix	65-70	4½-5 oz.	Determinate	Red Roma/paste tomatoes ripen over a short period of time, yielding large harvests for making sauce or salsa. Good disease resistance package. (F, LB, TMV, ToMV)
Daytona F1	72-75	3½-4½ oz.	Determinate	Moderately compact plants produce strong yields of high-quality fruit. (ASC, F, RKN, V)
Health Kick F1	72	4 oz.	Determinate	This saladette contains 50% more lycopene, an antioxidant. Plum-shaped fruits. Grows 4' tall with staking. (ASC, BS, F, GLS, SMV, ToMV, TSWV)
Little Napoli F1	65	2-2½ oz.	Determinate	Roma type bred for container gardens. Impressive yields for its size. (F, V)
Sunrise Sauce F1	55-60	3-4 oz.	Determinate	Compact, high-yielding plants are perfect for small-space gardens and containers. Orange fruits are flavorful and easy to peel. (F, V)

TOMATO - SLICING

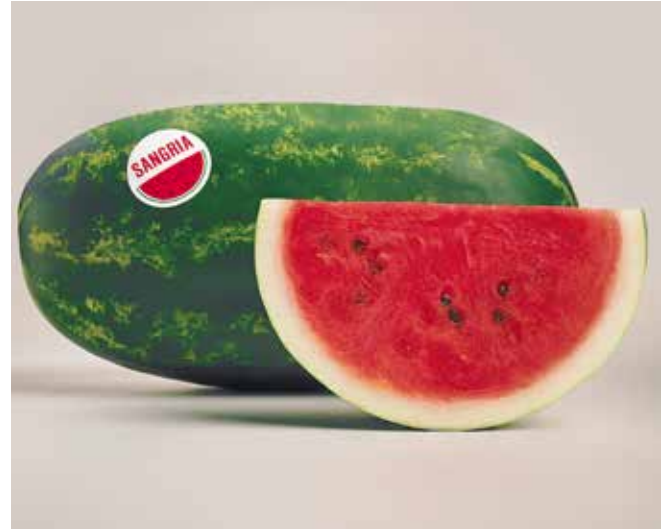

Variety	Days	Fruit Size	Type	Comments
Better Boy F1	75	8 oz.	Indeterminate	Well known for consistent performance. (ASC, BS, F, GLS, N, RKN, V)
Better Boy Plus F1	80	8 oz.	Indeterminate	An improvement of classic Better boy, with more flavor and improved disease resistance. Large bright Red fruits are unbelievably juicy. (ASC, F, FCRR, GLS, V, RKN, TSMV)
 Better Bush F1	68	5½ oz.	Determinate	A space-saving plant, ideal for patio pots or small gardens. Requires little staking. (F, N, RKN, V)
Burpee Big Boy F1	78	8-9 oz.	Indeterminate	Large fruit with smooth skin; good yields. (ASC)
 Carmello F1	75	5-7 oz.	Indeterminate	Classic French hybrid perfect for eating fresh off the vine. Fruit ripens to crimson red. (F, GLS, TMV, ToMV, V)
 Carolina Gold F1	75	8-10 oz.	Determinate	Adaptable to many environments. Semi-flattened shape makes this tomato firm and hardy. (F, V)
 AAS Celebrity F1	75	6-8 oz.	Bush	Widely adapted. Flavorful fruit with crack resistance. (ASC, F, GLS, N, RKN, TMV, ToMV)

Tomato Homeslice

Lemon Boy Plus

Watermelon Sangria

TOMATO - SLICING CONT.

Variety	Days	Fruit Size	Type	Comments
Celebrity Plus F1	80	7-8.5 oz.	Bush	All of the great flavor and performance of Celebrity with larger fruits with higher average Brix value and added disease resistance to Tomato spotted wilt virus. (ASC, F, GLS, RKN, V, ToMV, TSWV)
Heatmaster F1	75	7 oz.	Determinate	Bred for hot and humid climates, setting fruit under higher temps than other varieties. Firm fruit with deep oblate shape and good shelf life. (BS, F, RKN, ToMV, V)
Homeslice F1	63	5-6 oz.	Determinate	Compact habit makes a great container plant. (F, V)
Husky Red F1	68	6-8 oz.	Dwarf	Features good yields, early maturity and vibrant fruit. (ASC, F, GLS, N, RKN, V)
Lemon Boy F1	72	6 oz.	Indeterminate	Bright yellow, sweet fruit on large plants. (ASC, F, GLS, V)
Lemon Boy Plus F1	75	6-7 oz	Indeterminate	Improvement of Lemon Boy with higher average degree Brix value. High Resistance to Tomato mosaic virus strain 0-2, Tomato torrado virus, Fusarium wilt race 1-3 and Fusarium crown and root rot. (ToMV, F, FCRR, ASC, RKN, GLS, V, Pf, ToTV)
Little Sicily F1	60-65	3-4 oz.	Determinate	Small red slicing tomato with terrific flavor. Plants are compact and strong; can be grown with or without trellis support.
Patio F1	70	4 oz.	Bush	Good for container growing. (ASC, F, GLS)
Roadster F1	80-85	8-12 oz.	Determinate	Flavorful globe-shaped fruits are candy-apple red inside and out. (ASC, F, V, GLS, TSWV)

WATERMELON

Variety	Days	Fruit Size	Comments
Crimson Sweet	85	25 lbs.	Crisp, very sweet fruit with crimson red flesh. (A, FR, FW)
Sangria	87	20-23 lbs.	Excellent flesh quality. The first Allsweet type hybrid. (A, FW)
Sugar Baby	80	6-10 lbs.	Sweet, fine-textured, medium red flesh. Dark green skin.

VEGETABLE DISEASE RESISTANCE KEY

In our listings for many crops in this section, disease resistance has been denoted (often in parenthesis) with the following codes:

BEANS

BCMV	Common Bean Mosaic
BCTV	Beet Curly Top Virus
Psp	Halo Blights
Pss	Bacterial Brown Spot
R	Rust

SUNTORY
SUNTORY FLOWERS

5 New Varieties for 2025
Breeding breakthroughs!

Sun Parasol® Original XP

Superior flower power and garden performance
Full, bushy habit loaded with blooms.

BluePotion

Mesmerizing shades
of blue with pink buds

Mauvelous

Beautiful brush strokes
add an artist's touch

Double Pink Blush

Delightful double pink
blooms. FleuroStar
winner!

Sun Parasol® FiredUp™ Orange

Completely new category
Upright habit, natural born thriller!

Sundenia Red Improved

Full bushy plant
Loaded with large, rich red blooms

Keep Your Business "BLOOMING" with Natural Beauty

Offering Spring & Fall Annual Plugs

*A dedicated supplier to help you grow your future
On time deliveries; 90% of product shipped via truck
Exceptional customer service from our dedicated staff*

*Spring tray sizes offered: 40, 72, 144, 288, 512
Fall tray sizes offered: 84, 144, 288, 384*

*Photo catalog and online availability on our
website: www.natbeauty.com ♦ email: youngplantcs@natbeauty.com
1-800-655-1611*

*Natural Beauty plugs are produced
with a complete Biological Control Program*

TERMS & CONDITIONS OF SALE

DEFINITIONS As used herein, the term "Company" means Griffin Greenhouse Supplies, Inc.; the term "Merchandise" means the goods described on the face hereof; and the term "Purchaser" means the purchaser identified on the face hereof.

PRICING The prices for the Merchandise are subject to change without notice in accordance with the prices in effect on the date of shipment.

MINIMUM ORDER SIZE Minimum order amount is \$5. Plant orders under \$75 will incur a \$15 small-order upcharge along with delivery charges.

SHIPPING CHARGES – SEED Standard shipping for seed listed in our program will be included in the seed price on orders totaling \$150 or more, and shipped within the continental U.S. Shipping charges will be added to the invoice on orders totaling less than \$150. All special shipping requests resulting in extra charges will be added to the invoice. Drop shipments directly from the vendor are subject to shipping charges.

RETURNS AND CANCELLATIONS No Merchandise may be returned without authorization from our office. A) Plant orders are custom grown when booked in advance. Please review acknowledgments and confirmations for accuracy to prevent shortages and overages. Griffins cannot accept reductions or cancellations of plant orders once material is sown or stuck by the producer, Product ownership has transferred to the customer at that time. To review vendor specific cancellation terms go to www.griffins.com/plantcancellationpolicy B) Seed orders: The Company will accept return of seed orders for credit pursuant to the following conditions: (i) Seed packages must be returned in the same condition within 30 days of ship date. (ii) No opened or altered seed packages will be accepted for return. (iii) No special-order seed will be accepted for return. (iv) No direct-ship seed, New Guinea impatiens, Primed or PreNova 2.0 seed will be accepted for return without prior authorization. (v) Seed returns must be shipped in protected packaging via a trackable ship method (USPS-(low value only), UPS, Fed Ex). (vi) Purchaser must notify the Company's Customer Service department prior to return of all seed orders. (vii) Purchaser will be charged a 20% restocking fee.

SHIPMENT, RISK OF LOSS AND TITLE Shipments of the Merchandise hereunder are F.O.B. the Company's facility; the Purchaser assumes all risk and liability for loss, damage or destruction after delivery of the Merchandise to the carrier.

CLAIMS All plant deliveries must be inspected upon receipt. Any damage or quality issues must be reported with photos within 24 hours. The Company may request that you plant the usable material with notification of total losses at a later date. In the case of visible shipping damage upon receipt from FedEx/UPS, damage must be noted on your freight bill and signed by the carrier's agent (driver). You must contact the Company within 24 hours to report your claim, at which time we will advise if you need to file the claim directly with the carrier, or if we will handle the claim. Damage that is not visible until the boxes are opened must be reported within 24 hours of receipt. A customer's lack of notification allows the Company to reserve the right to deny credit. The Company will request replacements whenever possible, subject to availability. Any visible damage, whether detected upon delivery or after shipments are opened, must be documented with photographs.

PAYMENT We accept cash, check or the following major credit cards: American Express, Visa, Master Card and Discover. The Company also accepts checks via fax, when submitted with the Company's Check by Fax Authorization form. New customers paying via credit card for the first time on orders of \$1,000 or more, but have not applied for credit terms, must complete a Credit Card Authorization Form for each cardholder on the account. Credit card payments do not qualify for payment discounts, e.g., 1% 10 Net 30. The Company will apply a 2% convenience fee to the balance on invoice payments made with a credit card; the 2% convenience fee will be waived for orders paid in full with a credit card at time of booking. Plant and seed orders cannot be shipped COD due to the perishable nature of the product. Credit Card and COD prepayments in full include payment for the product, sales tax and estimated freight.

FINANCE CHARGES A 1½% per month service charge is added on all overdue accounts. This is an 18% annual charge.

TAXES Appropriate state tax will be charged based on the location of delivery. All items will be charged sales tax unless we have your tax exempt number on file. In compliance with the law, we must charge the tax on all items which the state designates as taxable, even though you have provided us with your sales tax number.

PICTURE DISCLAIMER The Company strives to provide the most accurate rendition of the varieties contained within. However, we rely on our suppliers to have plants correctly labeled for our photography and on images they provide to us. The Company cannot be held liable for incorrect entries, and all pictures and variety names should be verified with the vendor and breeder catalogs. Recommendations made by the Company are compiled from recognized horticultural sources. We are not responsible for damage or losses that occur through secondary parties.

EXCUSABLE DELAYS Any delivery dates agreed to by the Company are only approximate and are subject to reasonable variation. In any event the Company shall not be liable for delays or for failures in performance or default in delivery arising out of or resulting from causes beyond its control. In no event shall the Company be liable for any damages, incidental, consequential, special or otherwise, arising out of any failure to deliver any merchandise to the Purchaser, any delay in delivery thereof, or any rejection or revocation of acceptance thereof by the Purchaser.

PROHIBITION ON REPRODUCTION OR RESALE OF SEEDS The Merchandise is to be used solely in the production of crops. The Purchaser must under no circumstances make use of the Merchandise for further reproduction or any other form of multiplication. After grading, calibrating, pelleting or treating in any other way the Merchandise, the Company's warranty shall be void and of no further force and effect. The Purchaser must undertake to impose the prohibition laid down in this section on its own buyer on the understanding that they will also do the same for their subsequent customers. The Merchandise is not intended for retail sale; resale is strictly prohibited.

WARRANTIES Crop yield and quality are dependent upon many factors beyond the control of the Company and NO WARRANTY is made for crop yield and quality. The Company warrants only that all seeds, bulbs, plants or merchandise sold have been labeled as required under applicable state and federal seed law and the seeds, bulbs, or plants conform to the label description which recognized tolerances. THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, WRITTEN OR UNDERWRITTEN, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES, WHICH EXTEND BEYOND THE DESCRIPTION ON THE LABEL. No claim shall be asserted against the Company unless the Purchaser reports to the Company within a reasonable period after discovery (not to exceed 30 days any condition that might lead to a complaint.) THE PURCHASER'S EXCLUSIVE REMEDY FOR ANY CLAIM OR LOSS RESULTING FROM BREACH OF WARRANTY, BREACH OF CONTRACT, OR NEGLIGENCE (INCLUDING BUT NOT LIMITED TO INCIDENTAL OR CONSEQUENTIAL DAMAGES) SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE.

CLAIM REQUEST

As you're well aware, claims are a fact of life in the horticulture business. Claim activity often peaks in the winter months. Griffin is committed to managing the claims process quickly and efficiently. With your help, we can resolve claims promptly to minimize the impact on you and your productivity.

Reasons to request a claim, in the rare instance that...

- You open your plug shipment mid-February and your plants are frozen
- You open your poinsettia shipment in July and appears they overheated in transit
- You receive your shipment and notice several empty cells
- Your plants are blooming pink instead of red
- You're paying your invoice and notice a pricing error

It's time to file a claim – but how?

1. Embrace earliness. Report ANY trouble – even potential trouble – immediately to your Griffin Sales or Customer Service representative. Most vendors require notification within 24-48 hours of receipt. You must file a claim with us, even if you've contacted the vendor directly. If the plants rebound and the problem corrects itself, we can always close the claim – no harm done.

For seed, if you receive the wrong variety, product form or package size, contact your Customer Service rep immediately for a prompt replacement. Do not open the package as we cannot accept returns on opened packages.

2. Get specific. We'll take as much detail as you can dish out regarding the affected products and the trouble you're having. Often a photo of the label on the tray or tag in the bag of URCs is helpful to clearly identify where the plants came from which helps to validate the issue and address the cause. With seed claims, we'll ask for variety and batch information, delivery date, order number and/or invoice number. For seed germination issues, we need to know the approximate % germination achieved.

3. A picture is worth a thousand words (and a few dollars). Sometimes it's difficult to describe what's wrong with plants. Dated timely photos are required for claims relative to quality, wrong color, wrong variety or freight damage.

4. Add it up. The sooner we have your final loss counts (within 10 business days is ideal), the quicker we can coordinate with the vendor and issue your credit – or, possibly, replacements.

5. If you see freight damage, note this on Bill of Lading and take required dated photos. They are extremely helpful. We'll work with the vendor and the freight company to provide additional documentation as needed and start the process to secure replacements.

6. Do the math. Before reporting short counts, consider the quantity you're being invoiced per tray. For example, a 512 plug tray may only be billed as 485, so you get 27 "free." If your tray is missing 12 plugs, you still have 15 extra that you weren't billed for.

7. Review order acknowledgments – an ounce of prevention. Confirming quantities, varieties and ship weeks could prevent a claim in advance! If you find an error, contact your Sales or Customer Service representative immediately. Doing so helps us correct the issue before running into vendor cut-off dates for order changes.

8. Keep an eye on your invoices. If you see incorrect pricing on the first invoice in a series of orders, we can correct future orders before they're billed.

9. Return the right way. If you need to return seed, contact us in advance to provide a reason and get return instructions. Please refer to our return policy located in the terms and conditions of sale published on our website, in your seed price book and in your Griffin Seed & Plant catalog. Non-compliant seed returns are subject to a 20% restocking fee.

10. Don't dump product – at least not in a hurry. Some vendors require the product to be returned for testing; freight companies may want to inspect for damage. Our Claims team or your Sales representative will confirm when it's okay to toss.

Our goal is to facilitate claims resolution in a timely manner. We value your business and are dedicated to helping you maintain productivity and profitability. If you have any questions about the claims process, please let us know.

MEET OUR TEAM

We are here to help with your questions on all of these varieties and more. Here is a list of the sales reps in your area. Give us a call to see how we can help!

Jeremy Cude
Sales Representative
jcude@griffinmail.com
